

## Using ICL's Search History

The screenshot shows the 'Search History' tab of a search interface. It contains a table with four search sets (S1, S2, S3, S4) and their corresponding descriptions, article counts, and dates. Below the table are buttons for 'Delete Selected' and 'Clear Search History', and a 'Combination' section with a dropdown menu set to 'AND' and a 'Combine' button.

	Set Name	Description	Articles	Date
<input type="checkbox"/>	S1	All Fields:"back pain", Year: from 2000 to 2009, Peer Review only, Publication Type:Randomized Controlled Trial	30	2009-07-29 10:14:22
<input type="checkbox"/>	S2	All Fields:"back pain"	1248	2009-07-29 10:14:40
<input type="checkbox"/>	S3	All Fields:economic* OR All Fields:cost*	437	2009-07-29 10:15:01
<input type="checkbox"/>	S4	S2 AND S3	46	2009-07-29 10:15:13

Buttons: Delete Selected, Clear Search History

Combination: AND

Statement 1: "back pain" in all fields, 2000 to 2009, peer reviewed, RCTs

Statement 4: "back pain" in all fields, no limits, combined with the words (economic\* OR cost\*) in all fields
